

H125 Sustainability Investor Presentation

29th July 2025

Progress across our sustainability initiatives

Delivering on our climate ambition

Sustainable and Transition financing facilitated

\$220.2bn cumulative vs. target of \$1trn between 2023 and end 2030 (\$123.8bn as at H124)

Barclays Climate Ventures investments

£239m cumulative since 2020 vs. mandate of up to £500m by end of 2027 (£166m as at H124)

Published Barclays Transition Update in July 2025

Positive impacts in communities

Skills and employability

7m+ people supported to access skills and employment opportunities since 2023¹

Continuing to embed a Consistently Excellent standard

Consistently Excellent workshops

99.9% colleagues have now completed these, a key enabler of our three-year plan²

¹ Through LifeSkills, Digital Eagles and Military and Veterans Outreach | ² Interactive 'Being consistently excellent' workshops are led by external facilitators and supported by Barclays' leaders. The workshops aim at raising the standard of execution, with a focus on strengthening risk management and controls | Note: Barclays Transition Update can be found within the ESG Resource Hub: home.barclays/sustainability/esg-resource-hub/reporting-and-disclosures/

Climate and Nature

Our ambition is to be a net zero bank by 2050

Our Purpose Working together for a better financial future

**Working with clients on
their transition**

→ See pages 5-6

**Financing clients'
transition**

→ See pages 7-9

**Scaling climate
technology**

→ See page 10

Integrating nature and social considerations

**Managing climate-related risks to
our business & portfolios**

**Reducing our financed
emissions**

**Achieving net zero
operations**

Working alongside our clients as they transition to a low-carbon economy

Understanding our clients' priorities

- Regular client dialogue led by our coverage teams and sustainable finance specialists
- Supported by specialised analytical tools, such as the Client Transition Framework
- Our understanding is enhanced by market-leading independent research, nature and social assessments and practical experience

Client Transition Framework (CTF)

- Provides a detailed understanding of clients' current and future transition activities. All in-scope clients are reviewed annually
- Insights feed directly into how we assess and manage transition-related risks and opportunities when engaging with clients

4x efficiency gain in the CTF from AI

- Barclays collaborated with Sevva.AI¹ which provides data on clients' public transition plans
- Automates source document identification and monitoring
- Creates structured data inputs with verifiable reference sources

¹ An Unreasonable Impact company |

Engaging clients through our CTF

Aggregate CTF results^{1,2}

Portfolio CTF results¹

Illustrative example of client CTF score engagement

- Client
- Peer

CTF findings

- We have seen changes in the scoring of the CTF results over time, with further details of client transition plans becoming available a contributing factor
- Other findings in 2024, by client count, include:
 - 83% had a short-or medium-term public emissions reduction target (+2% vs 2023)
 - 85% had explicit board oversight of their transition plans (+3% vs 2023)

¹ Charts and figures reflect data as at December 2024 and includes clients in scope for the CTF assessments in each sector. The data, models and methodologies used (including those made available by third parties), and the judgements, estimates or assumptions made in them, are rapidly evolving and this may directly or indirectly affect the metrics, data points and targets used. The models, external data and methodologies used in information prepared by Barclays are or could be subject to adjustment which is beyond Barclays' control. Aggregate and portfolio CTF results are by lending limits | ² Clients may have scores in multiple sectors but are included only once to avoid double counting | Note: Charts may not sum due to rounding |

Barclays is committed to help finance the energy transition

\$220.2bn Sustainable and Transition financing since 2023 vs. target of \$1trn between 2023 and the end of 2030

 Social Includes financing for supranational, national and regional development institutions	 Environmental Includes financing via green bonds, green loans or green equity financing
 Sustainability-linked Includes transactions with pricing mechanisms linked to various sustainability performance targets	 Transition Includes lending, capital markets and other financing solutions provided to clients for transition activities or technologies

Sustainable and Transition financing cumulative volumes (\$bn)

In 2024, we recorded **approximately half a billion pounds in revenues** from sustainable and transition transactions, products and counterparties¹

Lending clients utilising sustainable and transition finance products exhibited **higher average returns**²

^Δ 2024 data subject to independent limited assurance under ISAE (UK) 3000 and ISAE 3410. Current limited assurance scope and opinions can be found within the ESG Resource Hub: home.barclays/sustainability/esg-resource-hub/reporting-and-disclosures/ | ¹ See appendix slide 30 for basis of preparation of Sustainable Revenues | ² Data as at 31 December 2024. Represents 12-month return on RWA. Includes client revenues and RWA from all Investment Banking, Global Markets and UK Corporate Business client revenues (including M&A advisory fees) to corporate lending clients | Note: Charts may not sum due to rounding | Note: Barclays' Sustainable Finance Framework and Transition Finance Framework can be found on the ESG Resource Hub |

Leveraging our financial expertise to facilitate sustainable finance

Leading market positions

UK's best bank for sustainable finance¹

#1

in UK sustainable bonds²

#2

in global corporate sustainable bonds²

Providing solutions for our clients

Barclays partnered with the National Wealth Fund to develop a Social Housing Retrofit Loan product. Barclays has provided the first loan under the scheme to VIVID in May 2025

The £50m term loan will support VIVID's goal to provide customers with warmer, more energy-efficient homes. These funds enable the retrofitting of 2,000+ homes, supporting 4,000+ customers living in social housing

London Gatwick Airport made its debut in the EUR market with an inaugural €750m 9-year Sustainability Linked Bond with Barclays acting as Joint Bookrunner on the deal

The bond showcased Gatwick's commitment to reducing its direct and indirect carbon dioxide emissions to the investor community, including its target to become a net-zero airport across Scope 1 and Scope 2 greenhouse gas emissions by 2030

Barclays acted as joint bookrunner on Volkswagen Financial Services AG's €2.25 billion triple tranche green bond issuance, supporting the company's ambition to accelerate the transition to sustainable mobility

Proceeds from the issuance are exclusively allocated to financing or refinancing zero-tailpipe emission vehicles, such as battery electric vehicles, with strict exclusions for internal combustion engine vehicles, including plug-in hybrids

¹<https://www.euromoney.com/article/73qe4lzeoaw4gkkgw4sgoskwk/awards/awards-for-excellence/awards-for-excellence-national-winners-2025-uks-best-bank-for-sustainable-finance-barclays/> | ² Data source: Dealogic for all sustainable-labelled bonds (including green, social and sustainability) across all currencies for the period covering 1 January 2025 to 30 June 2025 |

Expanding our activities through specialist products and partnerships

Greener Homes

- **Green Home Mortgage:** Offering lower mortgage rates for new-build properties with an EPC rating of A or B
 - **c.£5.7bn** completed 2018-H125 (c.£1bn in H125)
- **Greener Home Rewards:** Supporting eligible residential mortgage customers to install eligible energy efficiency-related measures
 - Offering a cash reward of **up to £2,000**
- Continue to support industry-specific needs, such as in the housebuilding sector, with the **Sustainable Residential Development Framework**

Supporting Consumers and Corporates

- **Green Loan for Business:** Offers discounted interest rates when customers finance eligible green asset
- **Green Agricultural Mortgage:** Supports UK farming clients to implement energy-efficiency improvements
- **Green Asset Finance:** Fixed rate on range of eligible green assets, via our partner Propel
- **Training:** 94% of our Relationship Managers & 1,000+ UKCB colleagues^{1,2} completed sustainability related training

Retrofit type at claim¹

Thought Leadership & Partnerships

	Co-chaired the Willow Review, putting forward 14 recommendations to help UK SMEs unlock growth opportunities from sustainability
	Accelerating the decarbonisation and delivery of quality improvements across social housing in the UK
	Helping UK clients explore energy, water and carbon saving opportunities

¹ Data per 2024 Annual Report | ² Reflecting 94% of Relationship Managers in the Business Bank and over 1,000 colleagues in the UK Corporate Bank via the Sustainability Academy | Note: Charts may not sum due to rounding |

Barclays Climate Ventures: £239m direct investments in climate innovation

Barclays Climate Ventures has a mandate to invest up to £500m into global climate-tech start-ups by the end of 2027

Capital deployed

24 Portfolio companies, including:

Naked Energy.

- 130 solar thermal tubes installed on the roof of the AELTC's¹ Aorangi Pavilion
- Supporting the hot water system that supplies the players' showers in the building
- Barclays is the Official Banking Partner of the Wimbledon Championships

- Deployed Endurance battery and solar-powered transport refrigeration with Tesco
- 250 tonnes CO2 removed²
- Up to 70% saving on operational expenditure estimated for Tesco's fleet²

Accelerating investment in climate tech companies³

63% Of BCV UK portfolio companies are Barclays clients

50+ Investments completed, collectively raising £820m

61% Transactions in which Barclays was lead or co-lead in⁴

£2.18 Of other investments⁵ enabled by every £1 invested by BCV

¹ All England Lawn Tennis Club | ² Based off analysis, assessments and data supplied and publicly disclosed by Sunswap | ³ Data as at FY2024 | ⁴ Barclays invested £140m in these transactions alongside £305m from other participants | ⁵ Lead investors set the terms of a deal and produce initial investment documentation. Once completed, this enables follow-on investors to join the round. It is also typical for follow-on investors to leverage the lead investor's due-diligence efforts | Note: The Barclays Climate Ventures Report can be found at: https://home.barclays/content/dam/home-barclays/documents/news/Insights/Barclays_Climate_Ventures_Report.pdf

We have continued to develop our work on nature

Policy positions

Forestry and Agricultural Commodities Statement

Outlines requirements for in-scope clients in the forestry and agricultural commodities sectors¹

Protected Areas Statement²

Includes a restriction in relation to project finance to support the development or expansion of a material project in Protected Areas³

Climate Change Statement

Restrictions relating to Amazon oil and gas and EDD⁴ for biomass power

Barclays' Environmental Statements can be found on the [ESG Resource Hub](#)

Risk assessments

LEAP⁵ Assessments

- Completed two sector-based assessments on Barclays Mining and Barclays Europe Power portfolios, using the TNFD's⁶ LEAP framework
- Pilot engagement planned in 2025, with selection of clients, using insights from LEAP assessments

Nature Exploratory Stress Test

- Assess the vulnerability and resilience of Barclays Europe's portfolio to environment-related shocks
- Incremental exercise to the internal stress test
- Adverse impacts⁸ identified are manageable within the bank's existing risk profile

Working with our clients

Nature CTF⁷ Pilot in Power Portfolio (2024)

- Covered governance, strategy, policy approach and disclosure
- Around 1/3 of clients had Board-level nature oversight
- Plan to expand nature questions across additional sectors in 2025

Environment Bank partnership

- First of its kind collaboration
- Aims to help Barclays' UK farming clients in England and UK Corporate Bank clients understand opportunities in the Biodiversity Net Gain market

¹ Agricultural commodities such as timber, pulp and paper, palm oil, beef and soy that are often associated with environmental and social impacts, including climate change, deforestation, biodiversity loss and human rights issues | ² Formerly known as World Heritage Sites and Ramsar Wetlands Statement | ³ And / or its buffer zones. A Protected Area is a clearly defined geographical space, recognised, dedicated and managed, through legal or other effective means, to achieve the long-term conservation of nature with associated ecosystem services and cultural values. Source: <https://iucn.org/our-work/topic/effective-protected-areas> | ⁴ Enhanced due diligence | ⁵ Locate, Evaluate, Assess, Prepare | ⁶ Taskforce on Nature-related Financial Disclosures | ⁷ Client Transition Framework | ⁸ As indicated by the results of the stress test over a 5-year period | Note: For details on the exact scope and application of these restrictions please refer to the statements on the ESG Resource Hub at: home.barclays/sustainability/esg-resource-hub/reporting-and-disclosures/

Our approach to managing the financial and operational risks of climate change

Climate Risk is a Principal Risk within the Barclays Enterprise Risk Management Framework

Our approach to setting and managing our appetite for climate risk

Barclays' approach to Identifying and managing climate risks

FY24 progress against our existing sector targets

We have set targets for material¹ high-emitting sectors in our portfolio

Upstream Energy: -45% vs. 2020 baseline

Power: -30% vs. 2020 baseline

Automotive Manufacturing: +1% vs. 2022 baseline

Cement: -9% vs. 2021 baseline

Steel: -23% vs. 2021 baseline

Sectors assessed from 2023

See next slide for details

— Reference scenario — Portfolio target path ○ Barclays' portfolio ● 2025 emissions reduction targets ◆ 2030 emissions reduction targets

¹ As defined in Foundations of Climate Mitigation Target Setting published by the UNEP Finance Initiative (unepfi.org/wordpress/wp-content/uploads/2022/05/Foundations-for-climate-mitigation-target-setting.pdf) | ² 2025 targets based on IEA SDS Benchmark OECD, 2030 targets based on IEA NZE2050 scenario |

FY24 progress against our existing sector targets

The below sectors have been covered by BlueTrack™ since 2023

Aviation: Flat vs. 2023 baseline

UK Agriculture: -11% vs. 2023 baseline

UK Commercial Real Estate: -2% vs. 2023 baseline

UK Housing: -1% vs. 2023 baseline

— Reference scenario — Portfolio target path —○— Barclays' portfolio ◆ 2030 emissions reduction targets ▲ 2030 convergence point

Sensitive sector and area policies

Climate Change Statement

- Sets out our position and approach to financing certain sensitive sectors, with tightening policy criteria and increasing expectations over time

Forestry and Agricultural Commodities Statement

- Aims to address the potential deforestation, land conversion and human rights impacts associated with our financing of the forestry and agricultural commodities sectors

Protected Areas Statement

- Sets out our position and approach to Protected Areas¹ which aims to support the preservation of biodiversity and ecosystems in those Protected Areas and/or their buffer zones

Our sensitive sector and area policies² are regularly reviewed and updated in light of the rapidly changing external environment, including and subject to local laws and regulation and are informed by engagement with our stakeholders³

Policy statements on sensitive sectors

Climate Change Statement sector coverage	Forestry and Agricultural Commodities Statement sector coverage
Upstream oil and gas	Timber, pulp and paper
Unconventional oil and gas	Palm oil
• Oil sands • Fracking • Arctic oil and gas • Amazon oil and gas • Ultra-deep water • Extra heavy oil	Soy
Thermal coal mining	Beef
Thermal coal power	
Biomass	

Barclays' policy statements on sensitive sectors can be found on the [ESG Resource Hub](#)

¹ Formerly known as World Heritage Site and Ramsar Wetlands Statement. A Protected Area is a clearly defined geographical space, recognised, dedicated and managed, through legal or other effective means, to achieve the long-term conservation of nature with associated ecosystem services and cultural values. Source: <https://iucn.org/our-work/topic/effective-protected-areas> | ² Our Climate Change Statement sets out our position and approach to financing certain sensitive sectors, taking into account relevant risk and other considerations as well as our Purpose. For further details please refer to the Climate Change Statement found at: home.barclays/sustainability/esg-resource-hub/statements-and-policy-positions/ | ³ Including shareholders, clients, subject specialists and civil society groups | Note: As noted in our Transition Update, we will seek to enhance how we manage the risks associated with the transition, financial and associated, and evolve how we appropriately mitigate these risks through our policies and processes, including our environmental statements, taking into account regional and jurisdictional considerations. Barclays Transition Update can be found within the ESG Resource Hub: home.barclays/sustainability/esg-resource-hub/reporting-and-disclosures/

Executing our net zero operations strategy

Reducing our Scope 1 and 2 emissions

Scope 1 and 2 GHG emissions ('000 tCO₂e)¹

- Continued to track ahead of our target² of 90% absolute reduction of our Scope 1 and 2 market-based emissions against a 2018 baseline – reducing these emissions by 95%^Δ

- Continued to source 100%^Δ renewable electricity³ for our global real estate portfolio² ahead of our 2025 year end target²

- Continued to strengthen our supply chain decarbonisation approach – developing a Supplier Transition Framework

- Assessing our nature-related impact and dependencies – completed initial LEAP assessment for global real estate portfolio⁴

- Completed human rights saliency assessment for our supply chain – identified eight potential salient human rights impacts

^Δ 2024 data subject to independent limited assurance under ISAE (UK) 3000 and ISAE 3410. Current limited assurance scope and opinions can be found within the ESG Resource Hub: home.barclays/sustainability/esg-resource-hub/reporting-and-disclosures/ |

¹ FY reporting periods are from 1 October of prior year to 30 September of year in question | ² A reference to a 'target' denotes an indicator linked to our executive remuneration | ³ In 2024 we maintained 100% renewable electricity sourcing for our global real estate portfolio through instruments including green tariffs (16%), energy attribute certificates (EACs)(48%), and energy attribute certificates from power purchase agreement (PPA) (36%) | ⁴ Global real estate portfolio includes offices, branches, campuses and data centres within our operational control |

Corporate Responsibility

Investing in our colleagues, strengthening our business and culture

Investing in our talent

- Top 10 rank in Times Top 100 Graduate Employers and LinkedIn Top Companies UK 2024 list
- Leadership programmes:
 - Key leadership development programmes - Strategic Leaders and Aspire
 - People Leader programme, Evolution, equipping our people leaders with effective management skills

FY24 Indices and KPIs

88% of colleagues "believe strongly in the goals and objectives of Barclays"

H125: Delivering to a Consistently Excellent standard

- A consistently excellent standard is an integral part of our culture and a key enabler of our three-year plan
- Throughout 2024 and 2025, dedicated Consistently Excellent workshops were rolled out to all Barclays colleagues, led by external facilitators
- The Consistently Excellent standard is now central to our hiring, promotion and colleague performance management processes

c.87,000 colleagues have now completed their Consistently Excellent workshops

86% of colleagues say that their people leader clearly communicates the actions they need to take to deliver consistently excellent outcomes

81% of colleagues believe "senior leaders regularly discuss and explain what being consistently excellent means for me, my team and business area"

Supporting our customers and clients

Building financial wellbeing

The Barclays Money Management Hub provides proactive money management information directly to customers

- Helping customers with greater control over their finances
- Early intervention strategies to support customers who may be showing signs of lacking financial resilience, including proactive communications

Access to banking

Committed to ensuring customers have access to cash and banking services through Banking Hubs and other touchpoints

- Joint commitment to open 350 banking hubs, alongside 161 currently operational
- Complete refresh of self-service devices in our branch network
- c.90% of our branches now have 24/7 cash deposit and account servicing capabilities
- Daily quiet hour in Barclays UK branches to support neurodivergent customers by reducing stimulations¹

Economic crimes and scams

We are proud to have one of the lowest scam rates and highest reimbursement rates in the industry

- Our fraud detection systems and machine learning models determine in less than a second if a payment should receive additional checks
- Part of the 'Do not originate' scheme²
- Founding member of Stop Scams UK cross-industry group seeking to make it harder for scammers to operate

¹ Such as strong lighting, loud machines and flashing television screens | ² Created in partnership with the telecommunications industry, UK Finance and Ofcom. Aimed at preventing our most common inbound helpline phone numbers from being used in a scam | Access to banking figures as at H125 |

Unlocking skills and employment in the communities we operate in

Digital Eagles Programme

Enables people to become more confident with technology and stay safe online

- Upskilled **1,000,000+** people over the last 18 months
- Digital Wings – free online learning platform for digital education with **167,000+** registered users
- **270+** coding clubs now registered on the Code Playground website, which introduces children to coding

Building employability and financial skills

Barclays' LifeSkills, delivering positive impact in communities for over a decade

- Helping millions of people develop the vital employability and financial skills they need to succeed at work and better manage their money
- On track to upskill **8.7m** people and place **250,000** people into work from 2023-27
- In H125, we upskilled **0.9m people** and placed c.**23,000** people into work
- **91%** of UK participants report improved confidence and motivation as at FY24

Creating opportunities through sports

Engaging and strengthening communities through sports

- Supporting young people with life and employability skills with the Set for Success programme, engaged **500+** young people from 2023-24
- Serving underserved communities in New York via the Net Work programme
- Reaching **550,000+¹** young people via the Barclays Community Football Fund
- Enabling equal access to football via the Barclays Girl's Football Schools partnerships, with **20,000¹** schools participating

¹ As at FY2024 | Note: All other data as at H125 unless stated otherwise |

Supporting businesses and fostering entrepreneurship

BARCLAYS | Eagle Labs

Incubate, inspire and educate UK founders, startups and scaleups and help them to succeed and scale

- Supported 18,900+¹ businesses since 2015
- Opened applications for 22 growth programmes in 2024

Example programmes to support business growth:

Funding Readiness Programme **CAPITAL ENTERPRISE**

Helping entrepreneurs to navigate the funding landscape

- Supported > 3,500 founders

Demo Directory **BARCLAYS**

Connecting entrepreneurs with potential investors

- Supported 1,870+ entrepreneurs, with 630+ registered investors²

Female Founders' Accelerator

Supporting female founders who are beyond idea stage and poised for growth

- Supported 200 female-led technology businesses since 2023
- Providing founders with access to advice, mentoring and networking opportunities
- Applications in progress for the fourth accelerator programme

unreasonable impact Created with **BARCLAYS**

Supporting high-growth entrepreneurs around the world with the network, resources and mentorship to address global issues and scale their businesses

- 376 high-growth entrepreneurs supported since 2016
- Ventures have raised \$16bn+ in financing since company inception and employ over 33,000 people globally
- Barclays works with 8 Unreasonable Impact companies across our real estate portfolio, supporting our net zero operations strategy
- Aim to support 200 businesses solving social and environmental challenges from 2023-27

¹ Covering businesses supported as members, programme participants, alumni and engaged ecosystem businesses | ² Ranging from Angel to Venture Capital | Note: All Eagle Labs and Unreasonable Impact data quoted is as at end of H125 |

Barclays has strict policies to protect privacy and keep data secure

Chief Security Office and Chief Information Security Office

- Barclays' Chief Security Office and Chief Information Security Office exist to keep the bank, its customers, clients, and colleagues safe and secure, and to support the resilience of our operations
 - Responsible for assessing and managing Barclays' material risks from cybersecurity threats

Data privacy

- Globally applicable Barclays Data Privacy Policy and Standards
- Operate in accordance with local privacy and data protection laws

Data security

- Third Party Service Provider Framework sets out control requirements for business units to manage risks¹ through their supply chains

Operational resilience

- Delivered through Operational Resilience Framework
- Review and validation of recovery and business response plans with regular testing

Barclays requires colleagues to complete mandatory information security training at least annually

¹ Including operational, reputational, conduct and legal risks to Barclays |

Remuneration for our Executive Directors is linked to non-financials

2025 annual bonus

Performance measure	Weighting
Financial measures	65%
Of which:	
• Profit before tax (with CET1 underpin) ¹ (ex. material items)	55%
• Cost: income ratio (ex. material items)	10%
Strategic non-financial measures	15%
• Customers, clients & colleagues	10%
• Risk & operational excellence	5%
Strategic objectives	20%

2025-2027 LTIP awards

Performance measure	Weighting
Financial measures	75%
Of which:	
• Average RoTE ² (ex. material items)	50%
• Relative total shareholder return	25%
Strategic non-financial measures	25%
• Sustainability, customers & clients	25%

¹ Pay-out of the PBT element will also depend on the CET1 ratio at the end of the performance year. If the CET1 ratio is below the MDA hurdle at the end of the performance year, the Remuneration Committee will consider what part, if any, of this element should pay out |

² Average over 2026 and 2027 |

Strong Board Governance

Board Governance Framework

Length of tenure¹ (Chairman and Non-Executive Directors)

Board Experience¹

Industry and leadership experience² (no. of Directors)

International Experience (no. of Directors)^{2,3}

¹ Tenure and Board Experience per Board composition as at 31 December 2024. Diane Schueneman and Tim Breedon retired from the Board with effect from 31 January 2025 and 30 April 2025, respectively. Diony Lebot and Mary Mack were appointed to the Board with effect from 17 March 2025 and 1 June 2025, respectively. Details of the skills and experience of the Directors can be found at <https://home.barclays/who-we-are/structure-and-leadership/leadership/> | ² Individual Directors may fall into one or more categories | ³ International experience is based on the location of the headquarters/registered office of a company |

The Barclays Way – our Code of Conduct

The Barclays Way outlines the Purpose, Values and Mindset which govern our way of working

Our Purpose

The reason our company exists; the societal need we fulfil

Our Values

Our moral compass, helping us do what we believe is right

Our Mindset

The operating manual for how we behave

Provides a reference point for how we behave towards:

Delivering world-class service for customers and clients

- Communicate clearly and transparently without jargon
- Do not offer customers and clients products which are not right for them
- Maintain customer and client confidentiality
- Avoid undeclared actual or potential conflicts of interest
- Take personal responsibility for putting things right when they go wrong

Our approach to climate change and sustainability

- Recognise the importance of supporting a just transition
- Focus on reducing our financed emissions (through policies, targets and financing)
- Committed to respecting human rights

Precision in risk management and controls

- Practice responsible risk management and due diligence
- Ensure colleagues understand role-specific controls and governance
- Protect and enhance our reputation
- Apply high standards of professional and ethical conduct at all times

Supporting our colleagues

- Act with the highest standards of conduct and integrity
- Welcome and foster opportunity and inclusion
- Challenge and escalate issues of concern fairly and clearly
- Recognise and celebrate colleagues' achievements

Supporting our communities

- Deliver impactful programmes in the communities where we operate
- Support colleagues to undertake volunteering in their local communities

Our inclusive culture

We are committed to Barclays being a workplace of inclusiveness and equality of opportunity

- We cultivate high-performing teams and generate rich opportunities to progress. We aspire to hire from the broadest global talent pools available to deliver against our strategy
- We cherish an inclusive work environment which encourages collaboration, personal expression, caring and respectful interaction
- Having an inclusive culture and ensuring equality of opportunity allows us to excel, delivering the best outcomes for our colleagues, customers and clients
- As a global company we do all this by complying with the local requirements in the jurisdictions in which we operate

UK Listing Rules Targets

Gender

Females on Board of Directors

Ethnicity

Members of the Board from a minority ethnic background³

¹ Met the senior Board position target as set out in the Listing Rules, FTSE Women Leaders Review and our Board Diversity and Inclusion Policy | ² Following Diony Lebot's appointment and Tim Breedon CBE's retirement from the Board effective 1 May, the female gender diversity on the Board increased to 42%. As at 30 June 2025, following the appointment of Mary Mack to the Board with effect from 1 June 2025, female gender diversity on the Board was 46% | ³ As set out in the Listing Rules, the recommendations contained within the Parker Review Committee Report into the Ethnic Diversity of UK Boards and the ethnic diversity target in our Board Diversity and Inclusion Policy. The Parker Review defines minority ethnic background as those who identifies as Asian, Black, Mixed/multiple or Other minority ethnic group | ⁴ As at 30 June 2025, 2 members of the Board were from a minority ethnic background (excluding minority white ethnic groups)

Creating positive outcomes for our stakeholders

Our Purpose

Working together for a better financial future

Our Vision

The UK-centred leader in global finance

Our Strategy

A Simpler, Better and More balanced Barclays

Our Values

Respect

We harness the power of diversity and inclusion in our business, trust those we work with, and value everyone's contribution

Integrity

We operate with honesty, courage, transparency and fairness in all we do

Service

We act with empathy and humility, putting the people and businesses we serve at the centre of what we do

Excellence

We set high standards for what we do, championing innovation and using our energy, expertise and resources to make a positive difference

Stewardship

We prize sustainability, and are passionate about leaving things better than we found them

Customers and clients

Colleagues

Society

Investors

The CTF provides a structured approach to evaluating clients' transition

Sustainable Revenues: Basis of preparation

Sustainable Revenues as at 31 December 2024 is defined as more broadly than financing covered by the Sustainable Finance Framework (SFF) and the Transition Finance Framework (TFF) and covers net revenue on the following:

- Revenues generated from providing financing and lending activities and products qualified as per the SFF and TFF
- Revenues from providing a broader range of products and services to counterparties assessed as 'pure play' as defined in the SFF and TFF. This includes all applicable qualifying revenues from M&A advisory, risk management solutions including derivatives, and liability products associated with the counterparty
- Revenues from qualifying products and services outside of the SFF and TFF, from Markets and Private Bank and Wealth Management offerings
- Revenues from investments in Barclays Climate Ventures

Products, transactions and counterparties included in Sustainable Finance volume and revenues	\$1trn Sustainable Finance volume target	Sustainable revenues
Products / transactions qualified per the Barclays SFF / TFF		
Transactions eligible under the Barclays SFF	✓	✓
Transactions eligible under the Barclays TFF	✓	✓

By region (%)

Barclays' financed emissions methodology

Our approach is underpinned by our methodologies to estimate our full in-scope balance sheet financed emissions and to track sector level emissions against the goals and timelines of the Paris Agreement

I. For full in-scope balance sheet

II. For activities where we have set targets¹

In 2024, we calculated an estimate of our full in-scope balance sheet financed emissions², enabling us to calculate the coverage of our reduction targets across our portfolio

Barclays' financed emissions methodology is outlined in our [Financed Emissions Methodology paper](#)

¹ Includes convergence point set for UK Housing | ² As at December 2023 |

BlueTrack™ dashboard shows our financed emissions targets and progress

BlueTrack™ is our methodology for measuring financed emissions and tracking them at a portfolio level

Sector				Setting our targets				Monitoring our progress in 2024		
Sector	Sector boundaries	Emissions scope	GHG included	Reference scenario	Target metric	Baseline year	Target vs. baseline	Cumulative change	Absolute emissions (MtCO ₂ e)	Physical intensity
Upstream Energy	Upstream Energy	1, 2 and 3	Carbon dioxide and methane	IEA SDS	Absolute emissions	2020	-15% by end of 2025	-45%	41.1 ^Δ	59.1 gCO ₂ e/MJ
				IEA NZE2050			-40% by end of 2030

¹ Physical intensity (CO₂e emissions per v-km travelled by LDV produced), expressed in gCO₂e/km | ² Barclays has identified a 2030 emissions intensity convergence point for UK Housing but has not set a formal target |

Scenario analysis forms a key part of our approach to understanding climate risks

History and evolution

Climate scenario analysis is primarily used for:

- Understanding Barclays' resilience to climate scenarios
- Our financial planning process
- Within our assessment of Expected Credit Losses reported under IFRS9

Three key scenario analysis exercises in 2024:

1. Internal Stress Test based on combined macro and climate risks (five-year time period)
2. Reverse Stress Test (to 2040)
3. Nature Exploratory Stress Test (for Barclays Europe)

During 2024, Barclays has made several key enhancements across climate scenario development, climate risk modelling, and the ways in which we embed climate learnings into our risk management

Barclays' strategy remains resilient to climate scenarios

Scenario Design

- Climate risk now incorporated into our main internal stress test, a bank-wide exercise conducted over a 5-year period
 - Covers the full Barclays balance sheet and aligned with the Bank's Medium Term Planning scenarios
- Internally designed scenario seeking to understand:
 - How climate can influence conventional macroeconomic stressed environment pathways and severity
 - The incremental impact of climate above macroeconomic stressed pathways

Climate Internal Stress Test scenario impact (illustrative only)

Results and Insights

- 10% impact on cumulative attributable profit, highlighting a significant but manageable risk. Losses were driven by:
 - Rising carbon prices, which increase defaults in Oil and Gas, in particular
 - Falling demand due to shifting consumer behaviour
 - Increasingly uneconomical assets, due to policy and frequency of acute events

We monitor our carbon-related assets and elevated risk sectors exposure

Lending portfolio

Carbon-related assets

£bn	2023	2024	YoY
Carbon-related assets	306.6 (40% of total L&A)	302.1 (37% of total L&A)	-1% (-3ppt)
o/w: elevated risk sector exposures	232.5 (30% of total L&A)	231.9 (28% of total L&A)	-0% (-2ppt)
Total L&A²	774.7	822.3	+6%

Capital markets financing

Carbon-related sectors¹ in wholesale credit

Financing towards carbon-related sectors¹ as a proportion of total financing is flat YoY to 23% in 2024 (2023: 23% of total financing of £308bn)

¹ The scope of elevated risk sector mapping has been revised based on our periodic assessment of climate risk sectors, resulting in activities such as renewable energy within Power Utilities, Water Utilities, Construction and Material, Food and fashion related activities (Others¹) now classified as elevated risk sectors/carbon related assets. The prior year comparatives have been re-presented to align with the updated sector mapping | ² L&A balances presented include loans & advances, and loan commitments. Loan commitments excludes fair value exposures of £15,350m in 2024 and £15,203m in 2023 |

We have continued to develop our approach on just transition

Barclays is committed to respecting the rights of people and communities in the context of the transition

In 2024, our key activities included:

Working to better understand how our clients are managing just transition topics. Considerations include:

- How clients manage the impacts of the transition on people through human rights policies and enhanced due diligence
- Plans for workforce transition
- Extent to which just transition factors may have commercial ramifications for the pace or cost of a client's transition

Just transition assessments¹:

- Assessments of social risks that could disrupt the cost or pace of the transition, potential adverse social or human rights impacts on people, and potential socio-economic opportunities of the transition
- Assessments will continue to inform our understanding of risks, impacts, and opportunities in the context of sustainable and transition finance

Industry engagement:

- Collaborating with Aberdeen City Council, bp, Shell UK, and SSE to consider ways of supporting a just energy transition for local communities and workers in Aberdeen
- Continued engagement with the Just Transition Finance Lab, of which we are a Founding Funder
- Contributed to the publication of an advisory paper² providing guidance for issuers on key steps and metrics for just transition

¹ For high-emitting sectors where just transition is a consideration, for example, energy, power and utilities, and food and agriculture | ² As part of the TPT Just Transition Working Group, Barclays contributed to the publication of the advisory paper "Putting People at the Heart of Transition Plans" |

Continue to enhance and further embed our approach to human rights

During 2024, we worked towards two important milestones for our human rights work

Updated the Barclays Group Statement on Human Rights

Reiterating our commitment to respecting human rights¹ as defined in the International Bill of Human Rights and the ILO Declaration, and guided by the UNGPs and OECD guidelines

Established a formal programme of work to enhance and embed human rights across our business:

Providing a governance structure and platform for the Group to make progress in human risk identification, further embedding and enhancing controls, and upskilling colleagues

An update of our progress during 2024 in our Focus Areas for Progress, as identified during our 2023 saliency assessment²

1 Corporate Culture	2 Saliency Assessments	3 Policies and EDD ³	4 Just Transition	5 Remedy
External training for senior stakeholders and decision-making committees Updated human rights content in mandatory training	Agreed definition of human rights risk Exercise to identify & prioritise potential salient risks in our supply chain Aiming to initiate further assessments in 2025	Updated certain sensitive sector statements and enhanced due diligence processes, embedding consideration for salient issues identified during 2023 assessment	Identified opportunities to engage with the BCV Portfolio to support companies to consider how they can contribute to a just transition	Active participation in industry-wide discussions⁴ aimed at advancing collective understanding around the role of the financial sector in effective remedy and seek to engage clients on their approach to remedy

In 2025 we continue to implement our Human Rights Programme

¹ As defined in the International Bill of Human Rights and the International Labour Organization's (ILO) Declaration on Fundamental Principles and Rights at Work. Our approach is guided by the UN Guiding Principles on Business and Human Rights (UNGPs) and the OECD Guidelines for Multinational Enterprises on Responsible Business Conduct | ² In 2023, we undertook a saliency assessment to identify the most salient human rights risks associated with the Corporate and Investment Bank financing portfolio | ³ Enhanced due diligence |

⁴ Including the Equator Principles and Thun Group |

Climate and sustainability governance

Oversight and management of climate and sustainability-related issues are embedded within our governance structure¹

¹ The committees, forums and governance bodies described here are non-exhaustive and their construct and Terms of Reference may vary on a legal entity basis or across the Group. The presentation of Group Committees and senior management is not directly illustrative of the committees / forums they report into |

Barclays has adopted a holistic approach to Financial Crime

Combined approach allows us to identify and manage relevant synergies and connections between the four key risk areas

We continue to foster a culture where our colleagues feel safe to speak up

Colleagues are encouraged to speak up about actions and behaviours that have no place in the organisation. **Board Level “Whistleblowers’ Champions”**¹ are responsible for ensuring and overseeing the integrity, independence and effectiveness of our whistleblowing programme

Colleagues

Colleagues are encouraged to speak up directly to their management, Compliance, HR or Legal. However, where they do not feel comfortable using these avenues, the Raising Concerns process is available

First point of contact

- People Leader
- Compliance
- HR
- Legal

Raising Concerns Team

Carefully assess the concerns raised and refers them to the most appropriate team for review and, where appropriate, investigation

Whistleblowing Investigations

Any concerns assessed as whistleblowing will be directed to a dedicated team within Compliance

69

Whistleblowing cases opened in 2024

Breach of Controls, Process, Other

Retaliation

Breach of Policy

Financial Crime

Other

- In 2024, the whistleblowing team opened a total of 69 whistleblowing concerns (2023: 67)
- 68 whistleblowing matters were closed in 2024 (2023: 60), of which 22% (2023: 25%) were found to have some level of substantiation. None of the retaliation concerns closed in 2024 were substantiated

Important information

Disclaimers

In preparing the climate and sustainability content within the Sustainability and Corporate Responsibility Investor Presentation wherever it appears, we have:

- Made certain key judgements, estimations and assumptions. This is, for example, the case in relation to financed emissions, portfolio alignment, classification of environmental and social financing, operational emissions and sustainability metrics, measurement of climate risk and scenario analysis
- Used climate and sustainability data, models, scenarios and methodologies we consider to be appropriate and suitable for these purposes as at the date on which they were deployed. This includes data, models, scenarios and methodologies made available by third parties (over which we have no control) and which may have been prepared using a range of different methodologies, or where the basis of preparation may not be known to us. Methodologies, interpretations or assumptions may not be capable of being independently verified and may therefore be inaccurate. Climate and sustainability data, models, scenarios and methodologies are subject to future risks and uncertainties and may change over time. Climate and sustainability disclosures in this document, including climate and sustainability-related data, models and methodologies, are not of the same standard as those available in the context of other financial information and use a greater number and level of judgements, assumptions and estimates, including with respect to the classification of climate and sustainable financing activities. Climate and sustainability disclosures are also not subject to the same or equivalent disclosure standards, historical reference points, benchmarks or globally accepted accounting principles. Historical data cannot be relied on as a strong indicator of future trajectories in the case of climate change and its evolution. Outputs of models, processed data, scenario analysis and the application of methodologies will also be affected by underlying data quality, which can be hard to assess, or challenges in accessing data on a timely basis
- Continued (and will continue) to review and develop our approach to data, models, scenarios and methodologies in line with market principles and standards as this subject area matures. The data, models, scenarios and methodologies used (including those made available by third parties) and the judgements, estimates and/or assumptions made in them or by us are rapidly evolving, including scientific evidence relating to climate change and scenarios outlining pathways to net zero, and this may directly or indirectly affect the metrics, data points, targets, convergence points and milestones contained in the climate and sustainability content within the Sustainability and Corporate Responsibility Investor Presentation. Further, changes in external factors which are outside of our control such as accounting and/or reporting standards, improvements in data quality, data availability, or updates to methodologies and models and/or updates or restatements of data by third parties, could impact – potentially materially – the performance metrics, data points, targets, convergence points and milestones contained in the climate and sustainability content within the Sustainability and Corporate Responsibility Investor Presentation. In future reports we may present some or all of the information for this reporting period (including information made available by third parties) using updated or more granular data or improved models, scenarios methodologies, market practices or standards. Equally, we may need to rebaseline, restate, revise, recalculate or recalibrate performance against targets, convergence points or milestones on the basis of such updated data. Such updated information may result in different outcomes than those included in the Sustainability and Corporate Responsibility Investor Presentation. It is important for readers and users of the Sustainability and Corporate Responsibility Investor Presentation to be aware that direct, like-for-like comparisons of each piece of information disclosed may not always be possible from one reporting period to another. The “Implementing our climate strategy” section of the Annual Report highlights where information in respect of a previous reporting period has been updated. Our principles-based approach to reporting financed emissions data (see page 84) sets out when financed emissions information in respect of a prior year will be identified and explained
- Included in the Sustainability and Corporate Responsibility Investor Presentation is a number of graphics, infographics, text boxes and illustrative case studies and credentials which aim to give a high-level overview of certain elements of the climate and sustainability content within the Annual Report and improve accessibility for readers. These graphics, infographics, text boxes and illustrative case studies and credentials are designed to be read within the context of the Annual Report as a whole.
- On sustainable revenues, we review our revenue perimeter on an ongoing basis and assess our coverage against the pure-play criteria. As a result, reported baseline metrics may change from one reporting period to another, and direct like-for-like comparisons may not always be possible from one reporting period to another.

KPMG LLP has performed limited independent assurance over selected climate and sustainability content, which has been marked with the symbol Δ. The assurance engagement was planned and performed in accordance with the International Standard on Assurance Engagements (UK) 3000 Assurance Engagements Other Than Audits or Reviews of Historical Financial Information and the International Standard on Assurance Engagements 3410 Assurance of Greenhouse Gas Statements. A limited assurance conclusion was issued and is available at the website link below. This includes details of the scope, reporting criteria, respective responsibilities, work performed, limitations and conclusion. No other information in the Sustainability and Corporate Responsibility Investor Presentation has been subject to this external limited assurance. There are a variety of internal and external factors which may impact our reported metrics and progress against our targets, convergence points and milestones.

Basis of preparation on sustainable revenues and financed emissions: Our disclosures on the share of total lending, share of Scope 1,2 financed emissions and split of lending by region is based on our disclosures approach to estimating our full in-scope balance sheet financed emissions. The data reflects the Group's position as of December 2023, due to the lead time required to fully analyse our entire in-scope exposures. The share of total lending is based on considering lending limits, trade finance and other contingent liabilities to clients excluding sovereign entities. The share of Scope 1,2 financed emissions considers only emissions from lending activities and excludes capital markets financing. Real estate exposures include residential mortgage lending. For all other sectors, allocations are based on a mapping of Barclays Industry Classification (BIC) codes of our clients. For disclosures pertaining to progress against financed emissions targets, data is reported as of December 2024.

Information provided in climate and sustainability disclosures

What is important to our investors and stakeholders evolves over time, and we aim to anticipate and respond to these changes. Disclosure expectations in relation to climate change and sustainability matters are particularly fast moving, and differ from more traditional areas of reporting including in relation to the level of detail and forward-looking nature of the information involved and the consideration of impacts on the environment and other persons. We have adapted our approach in relation to the disclosure of such matters. Our climate and sustainability disclosures take into account the wider context relevant to these topics, which may include evolving stakeholder views, the development of our climate strategy, longer timeframes for assessing potential risks and impacts, international long-term climate- and nature-based policy goals, evolving sustainability-related policy frameworks (and the harmonisation or interoperability of relevant regulation) and geopolitical developments and regional variations. Our climate and sustainability disclosures are subject to more uncertainty than disclosures relating to other subjects, given market challenges in relation to data reliability, consistency and timeliness – the use of estimates, judgements and assumptions which are likely to change over time, the application and development of data, models, scenarios and methodologies, the change in regulatory landscape, and variations in reporting standards. These factors mean disclosures may be amended, updated, and recalculated in future as market practice and data quality and availability develops, and could cause actual achievements, results, performance or other future events or conditions to differ, in some cases materially, from those stated, implied and/or reflected in any forward-looking statements or metrics included in our climate and sustainability disclosures. We give no assurance as to the likelihood of the achievement or reasonableness of any projections, estimates, forecasts, targets, commitments, ambitions, prospects or returns contained in our climate and sustainability disclosures and make no commitment to revise or update any such disclosures to reflect events or circumstances occurring or existing after the date of such statements.

Forward-looking Statements

This document contains certain forward-looking statements within the meaning of Section 21E of the US Securities Exchange Act of 1934, as amended, and Section 27A of the US Securities Act of 1933, as amended, with respect to the Group. Barclays cautions readers that no forward-looking statement is a guarantee of future performance, and that actual results or other financial condition or performance measures could differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by the fact they do not relate only to historical or current facts. Forward-looking statements sometimes use words such as ‘may’, ‘will’, ‘seek’, ‘continue’, ‘aim’, ‘anticipate’, ‘target’, ‘projected’, ‘expect’, ‘estimate’, ‘intend’, ‘plan’, ‘goal’, ‘believe’, ‘achieve’ or other words of similar meaning. Forward-looking statements can be made in writing but may also be made verbally by directors, officers and employees of the Group, including during management presentations, in connection with this document. Examples of forward-looking statements include, among others, statements or guidance regarding or relating to the Group’s future financial position, business strategy, income levels, costs, assets and liabilities, impairment charges, provisions, capital leverage and other regulatory ratios, capital distributions (including policy on dividends and share buybacks), return on tangible equity, projected levels of growth in banking and financial markets, industry trends, any commitments and targets (including ESG commitments and targets), plans and objectives for future operations, International Financial Reporting Standards (“IFRS”) and other statements that are not historical or current facts. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances.

Forward-looking statements speak only as at the date on which they are made. Forward-looking statements may be affected by a number of factors, including, without limitation: changes in legislation; regulations, governmental and regulatory policies, expectations and actions, voluntary codes of practices, and the interpretation thereof; changes in IFRS and other accounting standards, including practices with regard to the interpretation and application thereof and emerging and developing ESG reporting standards; the outcome of current and future legal proceedings and regulatory investigations; the Group’s ability along with governments and other stakeholders to measure, manage and mitigate the impacts of climate change effectively or navigate inconsistencies and conflicts in the manner in which climate policy is implemented in the regions where the Group operates, including as a result of the adoption of anti-ESG rules; environmental, social and geopolitical risks and incidents and similar events beyond the Group’s control; financial crime, the impact of competition in the banking and financial services industry; capital, liquidity, leverage and other regulatory rules and requirements applicable to past, current and future periods; UK, US, Eurozone and global macroeconomic and business conditions, including inflation; volatility in credit and capital markets; market-related risks such as changes in interest rates and foreign exchange rates; reforms to benchmark interest rates and indices; higher or lower asset valuations; changes in credit ratings of any entity within the Group or any securities issued by it; changes in counterparty risk; changes in consumer behaviour; the direct and indirect consequences of the conflicts in Ukraine and the Middle East on European and global macroeconomic conditions, political stability and financial markets; political elections, including the impact of the UK, European and US elections in 2024; developments in the UK’s relationship with the European Union (EU); the risk of cyberattacks, information or security breaches, technology failures or other operational disruptions and any subsequent impact on the Group’s reputation, business or operations; the Group’s ability to access funding; and the success of acquisitions (including the acquisition of Tesco Bank completed in November 2024), disposals and other strategic transactions. A number of these factors are beyond the Group’s control. As a result, the Group’s actual financial position, results, financial and nonfinancial metrics or performance measures or its ability to meet commitments and targets may differ materially from the statements or guidance set forth in the Group’s forward-looking statements. In setting its targets and outlook for the period 2024-2026, Barclays has made certain assumptions about the macro-economic environment, including, without limitation, inflation, interest and unemployment rates, the different markets and competitive conditions in which Barclays operates, and its ability to grow certain businesses and achieve costs savings and other structural actions. Additional risks and factors which may impact the Group’s future financial condition and performance are identified in the description of material existing and emerging risks beginning on page 188 of this Annual Report. Subject to Barclays PLC’s obligations under the applicable laws and regulations of any relevant jurisdiction (including, without limitation, the UK and the US) in relation to disclosure and ongoing information, we undertake no obligation to update publicly or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
